## 3<sup>rd</sup> Lebanese Oncology Forum

3-4 May 2019 - Mount Lebanon Hospital, Gharios Medical Center

### WELCOME LETTER

Dear Colleagues,

Mount Lebanon Hospital - Gharios Medical Center have the pleasure to invite you to its "3<sup>rd</sup> **Lebanese Oncology Forum**" which will be held on **May 3<sup>rd</sup> & 4<sup>th</sup>, 2019 at Mount Lebanon Hospital.**

The congress will provide both a forum for exchange on cutting-edge scientific and clinical information and will facilitate interactions among physicians, researchers, scientists, clinicians and other healthcare professionals to navigate the various challenges faced in further refining the health outcomes of patients suffering from cancer. Our aim is to bridge gaps and pave the future by hosting expert speakers to share valuable scientific knowledge and ranging from diagnostic and therapeutic tools and techniques to cutting-edge research.

I sincerely hope that this conference will deliberate and discuss all the different facets of Oncology and come up with recommendations that will lead to a better, healthier world. The LOF congresses have been very successful. We will put together another milestone on the way to success, focusing on the most important instrument and multiplying knowledge by sharing it with each other.

I am convinced, the program will provide you with new information and better knowledge to improve your research and results.

Looking forward to a successful and fruitful congress and hoping to see you all there!

Sincerely,

A handwritten signature in black ink, appearing to be 'Elie Gharios'.

**Elie Gharios, MD**  
Medical Director
